

LED NIGHTLIGHT SPECS

**To create your own LED night light design
please adhere to the following guidelines:**

- **Submit a vector or .eps file -- black & white only.
If you do not have the capability to create a vector file
then you can submit a PNG file but it must be in black & white only --
there can be no gray in the design.**
- **The maximum width of the design is 6 inches.
The maximum height is 12 inches.**

**Special Tip: The less detail your design has, the better the light
travels throughout the nightlight.**
